

Half Day/Full Day Safety Workshops

(FM-015)

FLEETMASTER GROUP

COURSE OBJECTIVES

Workshops are an effective tool when managing the road safety for groups of employees. With targeted interactive content, workshops can be used to inform colleagues of significant changes to company best practice, changes in legislation, awareness of changing road related risk, support the introduction of new technology (such as AFV's) and to support internal safety campaigns and messages in an efficient and engaging manner.

Workshops can be held across the UK at any agreed location for a minimum of 9 colleagues and up to 20 colleagues. You have the choice of booking a set topic workshop that is more technical in content for a half or full day or selecting two modules from the build a course selection to form a half day workshop.

WHO SHOULD ATTEND?

All colleagues that would benefit from improved awareness and driving skills relating to the selected workshop content.
